

CONFIDENTIAL

Illustrative Statement, prepared by the OCB Ad Hoc Committee, for inclusion in the "Confidential" Report on U.S. Personnel Overseas, in connection with "Recommended Board Action C. 3," of Memorandum for the Operations Coordinating Board, dated June 30, 1959, transmitting the Report.

STATEMENT

While I am gratified at the indications of progress in this Report, we must move ahead to still more significant improvements in programs affecting the conduct and attitudes of Americans overseas.

Acceptance of the U.S. presence by the peoples and governments of the host countries will be enhanced by good personal relations between them and our personnel. These person-to-person relationships constitute a valuable asset in the attainment of our national objectives.

I want the heads of each department and agency and their senior representatives overseas to give this matter their continuing personal attention and leadership.
